What a deplorable spectacle does the foregoing histrov present to our view! To what a desperate pass have they brought us, and for what? They say that they did it because the North would give us no guarantee on the slavery question. I have before stated that not one of the Conventions of the seven Cotton States ever demanded any guarantee whatever. Nay, they even refused to accept of any if their friends of the Border States would procure them for them

The Legislature of North Carolina, at its egular session in January, 1861, adopted esolutions appointing Commissioners to the Peace Congress at Washington city, and also to the Convention which assembled at Montgomery, Alabama, in February, 1861. for the purpose of adopting a Constitution, and establishing a provisional Governmen for the Confederate States of America. On the motion of the writer of this. the resolution appointing Commissioners to Montgomery was amended so as to instruct them to act solely as mediators, and use every effort possible to restore the Union upon the basis of the Crittenden propositions as modified by the Legislature of Virginia. The Commissioners under these instr were the Hon. D. L. Swain, Gen. M. W Ransom, and John L. Bridgers, Esq, who upon their return, submitted a report to his Excellency, Gov. Ellis, which was by him laid before the Legislature, and was printed among the legislative documents of that year, where it may be consulted. In this report they say that they had the most ample opportunities of ascertaining public opinon in the Cotton States, and then add:

DR. JOHN BULL'S COMPOUND

NO MAN'S name is more intimately connected with the history of the Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of Dr. JOHN BULL, of Louisville, Ky. His inimitable preparation of Sarsaparilla, has long stood at the head of the various compounds of that valuable drug. His Compound Pectoral of Wild Cherry, has become a household word throughout the West and South; and his Worm Lozenges, in less than a year after their introduction attained a reputation as wide spread as the continent of a reputation as wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his latest discovery, or rather combination, for he does not claim have been the discoverer of CEDRON, which the basis of the bitters now offered to the public. That honor belongs to the native inhabi Central America, to whom its virtues have been known for more than two hundred years. Armed with it the Indian bids deflance to the most deadly malaria, and handles, without fear, the most venomous serpents. It is a belief with them that while there is breath left in the body the Cadron is potent to cure, no matter what the disease may

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of Cedron with other approved tonics, the whole preserved in the best quality of copper-distilled Bourbon whisky, which he is confident has no equal in the world. He might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value.
